Curriculum Design

Our curriculum is driven by the needs of our pupils and aimed to provide a broad and balanced experience

Motivation and Self Belief

We have designed our curriculum to develop our children's self-confience and to instill in them the belief that they can achieve anything

Achieving

Giving our children the academic skills to allow them to take their place in the world

Parents and Community

We view our parents and local community as very much at the heart of our school. We want our parents to be fully engaged in their child's learning journey

Teaching and Learning

We ensure that our teachers are continually developing and use research to inform our decisions around teaching and learning. Our work on metacognition develops our children to be independent learners High Expectations We have high expectations for all our pupils despite their starting points. We aim to encourage them to have the same high expectations of themselves and to strive to always do their best

Local Environment

We have a unique setting for our school and we take full advantage of the opportunities it provides to develop respect for nature in our children
