British Values

Our curriculum offer ensures that the fundamental British Values are woven into all our teaching

The World Around Us

Our curriculum promotes cultural diversity and inclusion and gives our pupils an understanding of the wider world. Through links with industry and local business we aim to equip our children with the skills for future employment

PHSCE

Our curriculum gives pupils the opportunity to discuss key issues and provides them with knowledge and skills to develop positive relationships.

Aspiring

Developing the qualities to enable children to aim high and to make the most of their opportunities

Physical and Mental Wellbeing

Our curriculum provides opportunities for children to be educated about how to look after themselves. We link closely with parents and the local community and provide support and advice.

Behaviour and Attitudes

We have high expectations of behaviour and our high focus on PHSE builds within our children respect for each other. We encourage our pupils to always be kind

Communication and Language

Research recognises the importance communication and our curriculum reflects this. We place speech, language and communication at the heart of everything we do, starting with our youngest children.
