PART OF**

MEMBER OF THE WADE DEACON TRUST

1. Aims

This policy aims to ensure:

- That children access a broad and balanced curriculum that gives them the broad range of knowledge and skills needed for good progress through school and life
- Quality and consistency in teaching and learning so that every child makes good progress and no child gets left behind
- A close working partnership between staff and parents and/or carers
- Every child is included and supported through equality of opportunity and anti-discriminatory practice

2. Legislation

This policy is based on requirements set out in the [statutory framework for the Early Years Foundation Stage \(EYFS\)](#) for 2023.

This document also complies with our funding agreement and articles of association.

3. Structure of the EYFS

At Widnes Academy we our EYFS consists of Nursery (who attend for 15 hours across mornings) and Reception.

At Widnes Academy, we provide highly effective teaching and learning within a culture of challenge, nurture and support. We support all children to progress to be the best they can be. Our curriculum enables as many children as possible to achieve a Good Level of Development by the end of their time in the Early Years Foundation Stage (EYFS) and we build on this in subsequent years.

4. Curriculum

Our early years setting follows the curriculum as outlined in the latest EYFS statutory framework.

The EYFS framework includes 7 areas of learning and development that are equally important and inter-connected. 3 areas, known as the prime areas, are seen as particularly important for igniting curiosity and enthusiasm for learning, and for building children's capacity to learn, form relationships and thrive.

The prime areas are:

- Communication and language
- Physical development
- Personal, social and emotional development

The prime areas are strengthened and applied through 4 specific areas:

- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

4.1 Planning

Our staff plan activities and experiences for children that enable children to develop and learn effectively. In order to do this, staff working with the youngest children are expected to focus strongly on the 3 prime areas.

Staff also take into account the individual needs, interests, and stage of development of each child in their care, and use this information to plan a challenging and enjoyable experience. Where a child may have a special educational need or disability, staff consider whether specialist support is required, linking with relevant services from other agencies, where appropriate.

In planning and guiding children's activities, staff reflect on the different ways that children learn and include these in their practice.

4.2 Teaching

Each area of learning and development is implemented through planned, purposeful play, and through a mix of adult-led and child-initiated activities. Staff respond to each child's emerging needs and interests, guiding their development through warm, positive interaction.

As children grow older, and as their development allows, the balance gradually shifts towards more adult-led activities to help children prepare for more formal learning, ready for year 1.

At appropriate opportunities the adults will:

- Question, respond and engage the child in extended conversations that support sustained shared thinking
- Extend vocabulary, knowledge and skills
- Encourage independence
- Add resources that stimulate, motivate and engage the learner
- Demonstrate, model and work alongside the children
- Help children to see links in their learning
- Support and encourage the children
- Encourage children to be problem solvers, problem setters and investigators
- Re-direct the play if necessary
- Help children to learn how to negotiate and resolve conflict
- Promote children's well-being
- Observe and assess learning
- Record judgements and plan for next steps in learning
- Provide feedback to child/other adult/parents

5. Assessment

At Widnes Academy, ongoing assessment is an integral part of learning and development processes. Staff observe pupils to identify their level of achievement, interests and learning styles. These observations are used to shape future planning. Staff also take into account observations shared by parents and/or carers.

During Nursery observations of the children are used to assess them against age related criteria on INSIGHT tracker.

Within the first 6 weeks that a child **starts reception**, staff will administer the Reception Baseline Assessment (RBA).

At the **end of the EYFS**, staff complete the EYFS profile for each child. Pupils are assessed against the 17 early learning goals, indicating whether they are:

Meeting expected levels of development

Not yet reaching expected levels ('emerging')

The profile reflects ongoing observations, and discussions with parents and/or carers. The results of the profile are shared with parents and/or carers for their child.

The profile is moderated internally (referring to the Development Matters [guidance](#)) and in partnership with other local schools, to ensure consistent assessment judgements. EYFS profile data is submitted to the local authority upon request.

6. Working with parents and carers

We recognise that children learn and develop well when there's a strong partnership between staff and parents and/or carers.

Parents and/or carers are kept up to date with their child's progress and development. The progress check and EYFS profile helps to provide parents and/or carers with a well-rounded picture of their child's knowledge, understanding and abilities.

We recognise what an important role parents/carers play in their children's learning journey and we aim to involve them as much as possible in school life. We recognise the huge contribution that parents make to their child's

learning and we work hard to develop and sustain links with parents. We seek to start building relationships with parents before they start school or nursery through clear communication and the initial visits and information sessions. We do this in a range of different ways, which range from communication with home to inviting parents into the school setting. These include:

- Introductory sessions
- Stay and play sessions
- Reading books shared between home and school
- Weekly newsletters
- Parent workshops
- Home/school diaries
- Parent's evenings

7. Safeguarding and welfare procedures

We recognise that children learn best when they are healthy safe and secure, when their individual needs are met and when they have positive relationships with the adults caring for them. We follow safeguarding and welfare requirements to provide a welcoming, safe and stimulating environment where children are able to enjoy learning and grow in confidence.

We make sure that the appropriate statutory staff: child ratios are maintained in our setting to meet the needs of all children and ensure their safety:

- For children aged 3 and over:
 - Where a person with Qualified Teacher Status, Early Years Professional Status, Early Years Teacher Status or another approved level 6 qualification is working directly with the children, we have at least 1 member of staff for every 13 children
 - Where a person with the above qualifications is not working directly with the children, we have at least 1 member of staff for every 8 children
 - For classes where the majority of children will reach the age of 5 or older within the school year, we have at least 1 member of staff for every 30 children

We have at least 1 person with a current paediatric first aid (PFA) certificate on the premises and available at all times when children are present, including on outings. This PFA certificate is renewed every 3 years as required.

We promote good oral health, as well as good health in general, in the early years by liaising with the Halton Health Improvement Team who share with the children:

The effects of eating too many sweet things

The importance of brushing your teeth

The rest of our safeguarding and welfare procedures are outlined in our school's child protection and safeguarding policy.

8. Monitoring arrangements

This policy will be reviewed and approved by the SLT every 2 years.

At every review, the policy will be shared with the governing board.
