

# ONLINE SAFETY POLICY

## 2023-2024

Ratified by Governors: 22<sup>nd</sup> November 2023

Next Review Date: 22<sup>nd</sup> November 2024

Link: Mrs L.Kirchin

This online safety policy was approved by the Board of Directors/Governing Body/Governors Sub Committee on:	22 <sup>nd</sup> November 2023
The implementation of this online safety policy will be monitored by the:	SLT
Monitoring will take place at regular intervals:	Once a year
The Governing Body will receive a report on the implementation of the online safety policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	Once A year
The online safety policy will be reviewed annually, or more regularly in the light of any significant new developments in	November 2024

the use of the technologies, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	
Should serious online safety incidents take place, the following external persons/agencies should be informed:	Trust Operations Manager – I Kirkham SCIE – Halton LA Police – via CEOP

**The school will monitor the impact of the policy using:**

- Logs of reported incidents
- Internal monitoring data for network activity
- Surveys/questionnaires Scope of the Policy

This policy applies to all members of the Widnes Academy and Wade Deacon Trust community (including all staff, pupils, volunteers, parents/carers, visitors and community users) who have access to and are users of the Widnes Academy digital technology systems both in and out of the Academy.

The Education and Inspections Act 2006 empowers Headteachers/Principals/Head of School to such extent as is reasonable, to regulate the behaviour of students/pupils when they are off the Widnes Academy site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the school but is linked to membership of Widnes Academy.

The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

Widnes Academy will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

**Roles and Responsibilities**

The following section outlines the online safety roles and responsibilities of individuals and groups within Widnes Academy

**Governors**

The Local Governing Body are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing has taken on the role of Online Safety Governor as part of the wider remit of Safeguarding Governor

The role of the Online Safety Governor will include:

- regular meetings with the Online Safety Co-ordinator
- regular monitoring of online safety incident logs
- reporting termly to Governing Body meetings

**Head of School and Senior Leaders**

- The Head of School has a duty of care for ensuring the safety (including online safety) of members of the school community.
- The Head of School and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on Page 3

of 30 dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant Local Authority/MAT/other relevant body disciplinary procedures).

- The Head of School and Senior Leaders are responsible for ensuring that relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Head of School and Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles. (The school/academy will need to describe this and may wish to involve the Local Authority/MAT/other responsible body in this process)

### **Online Safety Lead (liaises with the Designated Senior Lead)**

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority/MAT/relevant body • liaises with school technical staff
- receives reports of online safety incidents and creates a log of incidents to inform future online safety developments
- meets regularly with Online Safety Governor to discuss current issues, review incident logs and filtering/change control logs • attends relevant meetings of Governors
- reports regularly to Senior Leadership Team

### **Network Manager/Technical staff**

The technical support for the school is managed by Wade Deacon Trust overseen by the ICT manager

Those with technical responsibilities are responsible for ensuring:

- that the academy’s technical infrastructure is secure and is not open to misuse or malicious attack
- that the academy meets required online safety technical requirements and any Local Authority/MAT/other relevant body online safety policy/guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy
- the filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the networks/internet/digital technologies is regularly monitored in order that any misuse/attempted misuse can be reported to the Head of School and Senior Leaders; Online Safety Lead for investigation/action/sanction
- that monitoring software/systems are implemented and updated as agreed in academy policies

### **Teaching and Support Staff**

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school/academy online safety policy and practices

- they have read, understood and signed the staff acceptable use policy/agreement (AUP/AUA)
- they report any suspected misuse or problem to the Principal for investigation and action
- all digital communications with students/pupils/parents/carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities Page 4 of 30
- pupils understand and follow the Online Safety Policy and acceptable use policies • pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
  - they monitor the use of digital technologies, mobile devices, cameras, etc. in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

### **Designated Safeguarding Lead**

Should be trained in online safety issues and be aware of the potential for serious child protection/safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- online-bullying

### **Pupils:**

- are responsible for using the academy digital technology systems in accordance with the pupil acceptable use agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
  - will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the academy's online safety policy covers their actions out of school, if related to their membership of the school

### **Parents/carers**

Parents/carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The /academy will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website, social media and information about national/local online safety campaigns/literature.

Parents and carers will be encouraged to support the academy in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website/Learning Platform and on-line student/pupil records
- their children's personal devices in the school/academy (where this is allowed)

## Community Users

Community Users who access school/academy systems or programmes as part of the wider academy provision will be expected to sign a Community User AUA before being provided with access to school/academy systems.

## Policy Statements Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety/digital literacy is therefore an essential part of the academy's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum are provided as part of Computing/PHSE/other lessons and are regularly revisited Page 5 of 30
- Key online safety messages are reinforced as part of a planned programme of assemblies and tutorial/pastoral activities
- Pupils will be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.
- Pupils will be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils will be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- Pupils will be helped to understand the need for the pupil acceptable use agreement and encouraged to adopt safe and responsible use both within and outside academy. • Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- Where students/pupils are allowed to freely search the internet, staff are vigilant in monitoring the content of the websites the young people visit.

It is accepted that from time to time, for good educational reasons, students may need to research topics (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need

## Education – Parents/carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The academy will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, Learning Platform
- Parents/carers evenings/sessions

- High profile events/campaigns e.g. Safer Internet Day
- Reference to the relevant web sites/publications e.g. swgfl.org.uk, www.saferinternet.org.uk/, <http://www.childnet.com/parents-and-carers> (see appendix for further links/resources)

### **Education – The Wider Community**

The academy will provide opportunities for local community groups/members of the community to gain from the academy's online safety knowledge and experience. This may be offered through the following:

- Providing family learning courses in use of new digital technologies, digital literacy and online safety
- Online safety messages targeted towards grandparents and other relatives as well as parents.
- The academy website will provide online safety information for the wider community
- Sharing their online safety expertise/good practice with other local schools
- Supporting community groups e.g. Early Years Settings, Childminders, youth/sports/voluntary groups to enhance their online safety provision

### **Education & Training – Staff/Volunteers**

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy.

Training will be offered as follows:

- A planned programme of formal online safety training will be made available to staff via The National College or through Wade Deacon Trust. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school/academy online safety policy and acceptable use agreements. Page 6 of 30 • It is expected that some staff will identify online safety as a training need within the performance management process.
- The Online Safety Lead (or other nominated person) will receive regular updates through attendance at external training events (e.g. from SWGfL/LA/other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This online safety policy and its updates will be presented to and discussed by staff in staff/team meetings/training sessions.
- The Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.

### **Training – Governors**

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any group involved in technology/online safety/health and safety /safeguarding.

This may be offered in a number of ways:

- Attendance at training provided by the Local Authority/MAT/National Governors Association/or other relevant organisation
- Participation in academy training/information sessions for staff or parents

### **Technical – infrastructure/equipment, filtering and monitoring**

The academy, with support from the Wade Deacon Trust, will be responsible for ensuring that the academy infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this

policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

Widnes Academy technical systems will be managed in ways that ensure that the academy meets recommended technical requirements

- There will be regular reviews and audits of the safety and security of school/academy technical systems
- Servers, wireless systems and cabling is securely located and physical access restricted
- All users will have clearly defined access rights to school/academy technical systems and devices.
  - All users (at KS2 and above) will be provided with a username and secure password by the school IT technician who will keep an up to date record of users and their usernames. Each class teacher will be responsible for the security of their class username and passwords with children at KS2 being encouraged to be responsible for their own.
  - The “master/administrator” passwords for the academy systems, used by the Network Manager (or other person) must also be available Principal or other nominated senior leader and kept in a secure place (e.g. school/academy safe)
  - Graham Davies, as the IT technician allocated to the school by Wade Deacon Trust is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
    - Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes (see appendix for more details)
    - Internet filtering/monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet
- The academy has provided enhanced/differentiated user-level filtering (allowing different filtering levels for different ages/stages and different groups of users – staff/pupils/students etc)
- Widnes Academy technical staff, in liaison with Wade Deacon Trust regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.
  - An appropriate system is in place via Wade Deacon Trust for users to report any actual/potential technical incident/security breach to the relevant person, as agreed).
  - Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices, etc. from accidental or malicious attempts which might threaten the security of the school systems Page 7 of 30 and data. These are tested regularly. The school infrastructure and individual devices are protected by up to date virus software.
    - An agreed procedure is in place for the provision of temporary access of “guests” (e.g. trainee teachers, supply teachers, visitors) onto the school systems. This involves a separate login which is provided by school and which restricts access to any sensitive documents or material. Access to SIMS is overseen by the class teacher.
    - An agreed policy is in place – via the Wade Deacon Trust - regarding the extent of personal use that users (staff/students/pupils/community users) and their family members are allowed on school devices that may be used out of school.
    - An agreed system is in place that allows staff to/forbids staff from downloading executable files and installing programmes on school devices.

**An agreed policy is in place – Wade Deacon Trust Code of Conduct** - regarding the use of removable media (e.g. memory sticks/CDs/DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

## Mobile Technologies

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use mobile/personal devices in a school context is educational. Teaching about the safe and appropriate use of mobile technologies will be an integral part of the school's online safety education programme.

### **Use of digital and video images**

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students/pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online-bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of students/pupils are published on the school website/social media/local press
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at academy events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other students/pupils in the digital/video images.
- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow academy policies concerning the sharing, distribution and publication of those images. Those images should only be taken on academy equipment; the personal equipment of staff should not be used for such purposes
- Care should be taken when taking digital/video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the academy into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Pupil's work can only be published with the permission of the pupil and parents or carers.

### **Data Protection**

With effect from 25th May 2018, the data protection arrangements for the UK changed following the European Union General Data Protection Regulation (GDPR). As a result, schools are likely to be subject to greater scrutiny in their care and use of personal data. More detailed guidance is available in the appendices to this document.

Widnes Academy, as part of the Wade Deacon Trust, follows all the policies and procedures agreed by the Trust including:

- Data Protection Policy
- Acceptable Use of the Internet for Parents and Carers

- Freedom of Information Publication Scheme
- Data Privacy Statements
- Information Communication Systems Policy
- Social Media Policy • Safeguarding Policy

The above named policies can be found on the school website at [www.widnesacademy.co.uk](http://www.widnesacademy.co.uk)

A wide range of rapidly developing communications technologies has the potential to enhance learning.

When using communication technologies, the academy considers the following as good practice:

- The official Widnes Academy email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and pupils should therefore use only the academy email service to communicate with others when in school, or on school/academy systems (e.g. by remote access).
- Users must immediately report, to the nominated person – in accordance with the academy policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents/carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) /academy systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class/group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual school/academy email addresses for educational use.
- Pupils are taught about online safety issues, such as the risks attached to the sharing of personal details. They are also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.

Dealing with unsuitable/inappropriate activities Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from academy and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution.

There are however a range of activities which may, generally, be legal but would be inappropriate in an academy context, either because of the age of the users or the nature of those activities.

The academy believes that the activities referred to in the following section would be inappropriate in a academy context and that users, as defined below, should not engage in these activities in/or outside the school/academy when using academy equipment or systems.

The academy policy restricts usage as follows:

## User Actions

		Acceptable	Acceptable at certain times	Acceptable for nominated user	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978  N.B. Schools/academies should refer to guidance about dealing with self-generated images/sexting – <a href="#">UKSIC Responding to and managing sexting incidents</a> and <a href="#">UKCIS – Sexting in schools and colleges</a>					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
	Activities that might be classed as cyber-crime under the Computer Misuse Act: <ul style="list-style-type: none"> <li>Gaining unauthorised access to school networks, data and files, through the use of computers/devices</li> <li>Creating or propagating computer viruses or other harmful files</li> <li>Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords)</li> <li>Disable/Impair/Disrupt network functionality through the use of computers/devices</li> <li>Using penetration testing equipment (without relevant permission)</li> </ul>					X

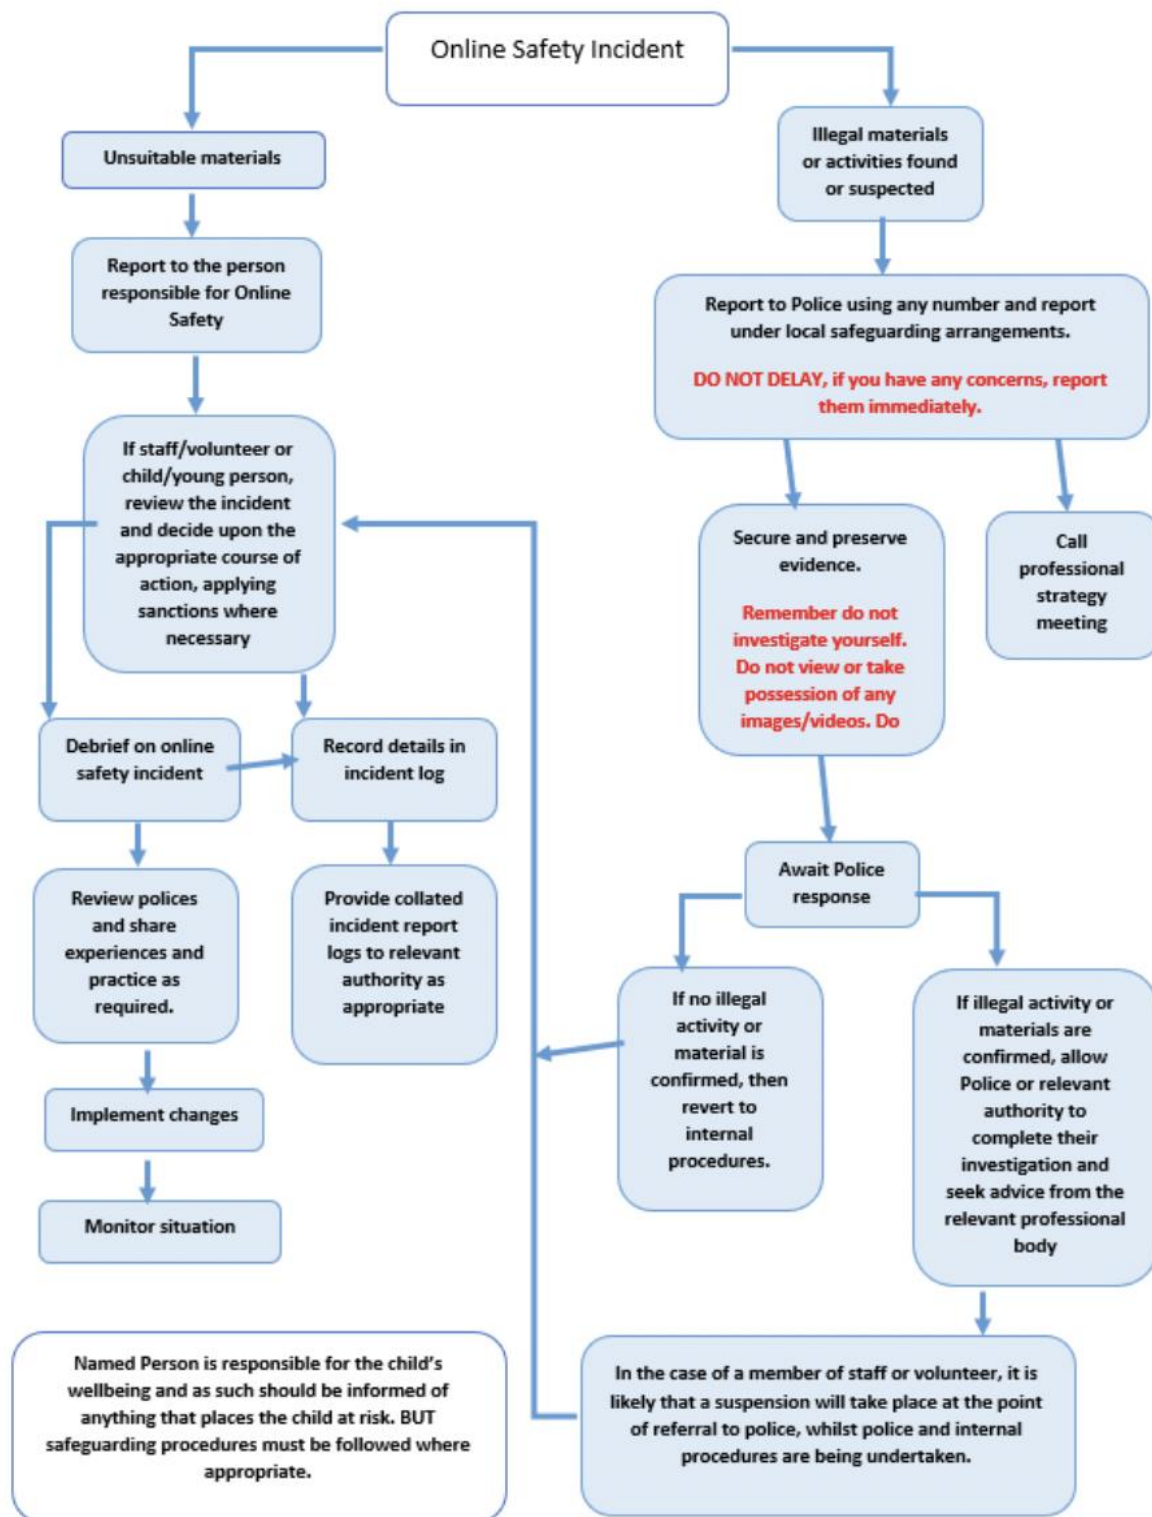

Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school/academy				X	
Revealing or publicising confidential or proprietary information (e.g. financial/personal information, databases, computer/network access codes and passwords)				X	
Unfair usage (downloading/uploading large files that hinders others in their use of the internet)				X	
Using school systems to run a private business				X	
Infringing copyright				X	
On-line gaming (educational)		X			
On-line gaming (non-educational)			X		
On-line gambling				X	
On-line shopping/commerce			X		
File sharing		X			
Use of social media		X			
Use of messaging apps			X		
Use of video broadcasting e.g. Youtube			X		

### ***Responding to incidents of misuse***

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

### **Illegal Incidents**

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

## Other Incidents

It is hoped that all members of the Widnes Academy community will be responsible users of digital technologies, who understand and follow academy policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
  - o Internal response or discipline procedures
  - o Involvement by Local Authority/Academy Group or national/local organisation (as relevant).
  - o Police involvement and/or action

**If content being reviewed includes images of child abuse, then the monitoring should be halted and referred to the Police immediately.**

Other instances to report to the police would include:

- o incidents of 'grooming' behaviour
- o the sending of obscene materials to a child
- o adult material which potentially breaches the Obscene Publications Act
- o criminally racist material
- o promotion of terrorism or extremism
- o offences under the Computer Misuse Act (see User Actions chart above)
- o other criminal conduct, activity or materials

**Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the school/academy and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes.

The completed form should be retained by the group for evidence and reference purposes.

**Widnes Academy actions & sanctions** It is more likely that the academy will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with.

It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

## Students/Pupils Incidents

	Refer to class teacher/tutor	Refer to Head of Department/Year/other	Refer to Headteacher/Principal	Refer to Police	Refer to technical support staff for action re filtering/security etc.	Inform parents/carers	Removal of network/internet access rights	Warning	Further sanction e.g. detention/exclusion
<b>Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).</b>		X	X	X					
Unauthorised use of non-educational sites during lessons									
Unauthorised/inappropriate use of mobile phone/digital camera/other mobile device									
Unauthorised/inappropriate use of social media/ messaging apps/personal email									
Unauthorised downloading or uploading of files									
Allowing others to access school/academy network by sharing username and passwords									
Attempting to access or accessing the school/academy network, using another student's/pupil's account									
Attempting to access or accessing the school/academy network, using the account of a member of staff									
Corrupting or destroying the data of other users									
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature									
Continued infringements of the above, following previous warnings or sanctions									
Actions which could bring the school/academy into disrepute or breach the integrity of the ethos of the school									
Using proxy sites or other means to subvert the school's/academy's filtering system									

Accidentally accessing offensive or pornographic material and failing to report the incident									
Deliberately accessing or trying to access offensive or pornographic material									
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act									

Staff Incidents	Refer to line manager	Refer to Headteacher/Principal	Refer to Local Authority/HR	Refer to Police	Refer to Technical Support	Staff for action re filtering etc.	Warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).		X	X	X					
Inappropriate personal use of the internet/social media/personal email									
Unauthorised downloading or uploading of files									
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account									
Careless use of personal data e.g. holding or transferring data in an insecure manner									
Deliberate actions to breach data protection or network security rules									
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software									
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature									
Using personal email/social networking/instant messaging/text messaging to carrying out digital communications with students/pupils									
Actions which could compromise the staff member's professional standing									
Actions which could bring the school/academy into disrepute or breach the integrity of the ethos of the school/academy									

Using proxy sites or other means to subvert the school's/academy's filtering system								
Accidentally accessing offensive or pornographic material and failing to report the incident								
Deliberately accessing or trying to access offensive or pornographic material								
Breaching copyright or licensing regulations								
Continued infringements of the above, following previous warnings or sanctions								

## Appendices

### Acceptable Use Agreement (Y3 and above)

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the school/academy will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc.)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

#### **I understand that everyone has equal rights to use technology as a resource and:**

- I understand that the Widnes Academy devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the Widnes Academy systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (e.g. YouTube), unless I have permission of a member of staff to do so.

#### **I will act as I expect others to act toward me:**

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.

- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

**I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:**

- I will only use my own personal devices (mobile phones/USB devices etc.) in school if I have permission. I understand that, if I do use my own devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person/organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.
- I will only use social media sites with permission and at the times that are allowed

**When using the internet for research or recreation, I recognise that:**

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos) Page 18 of 30
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

**I understand that I am responsible for my actions, both in and out of school:**

- I understand that Widnes Academy also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be online-bullying, use of images or personal information).
- I understand that if I fail to comply with this acceptable use agreement, I may be subject to disciplinary action. This could include; loss of access to the school network/internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices

**Student/Pupil Acceptable Use Agreement Form**

This form relates to the pupil acceptable use agreement; to which it is attached.

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school/academy systems and devices (both in and out of school)
- I use my own devices in school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.

- I use my own equipment out of the school/academy in a way that is related to me being a member of this school/academy e.g. communicating with other members of the school, accessing school email, VLE, website etc.

## *Acceptable Use Policy Agreement Template – for younger pupils (Foundation/KS1)*

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers/tablets
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of computers/tablets and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that I must not take a person's picture without their consent
- I know that if I break the rules I might not be allowed to use a computer/tablet

Signed (child): .....

Signed (parent): .....

## *Parent/Carer Acceptable Use Agreement Template*

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school/academy systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that *pupils* will have good access to digital technologies to enhance their learning and will, in return, expect the *students/pupils* to agree to be responsible users. A copy of the *pupil* acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

### Permission Form

Parent/Carers Name: .....

As the parent/carer of the above *students/pupils*, I give permission for my son/daughter to have access to the internet and to ICT systems at school.

**Either: (KS2 and above)**

*I know that my son/daughter has signed an acceptable use agreement and has received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.*

**Or: (KSI)**

*I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.*

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

## Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. *Pupils* and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's first name will be used.

The school will comply with the Data Protection Act and request parent's/carers permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *students/pupils* in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

## Digital/Video Images Permission Form

Parent/Carers Name:.....Student/Pupil Name:.....

As the parent/carer of the above student/pupil, I agree to the school taking digital/video images of my child/children.	Yes/No
I agree to these images being used:	
<ul style="list-style-type: none"> <li>to support learning activities.</li> </ul>	Yes/No
<ul style="list-style-type: none"> <li>in publicity that reasonably celebrates success and promotes the work of the school.</li> </ul>	Yes/No
Insert statements here that explicitly detail where images are published by the school/academy	Yes/No
I agree that if I take digital or video images at, or of school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.	Yes/No

Date: .....

## **Staff (and Volunteer) Acceptable Use Policy Agreement**

### **Template School Policy**

New technologies have become integral to the lives of children and young people in today's society, both within schools/academies and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school/academy systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for students/pupils learning and will, in return, expect staff and volunteers to agree to be responsible users.

### **Acceptable Use Policy Agreement**

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that students/pupils receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

### **I will be professional in my communications and actions when using school systems**

- : • I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.

- I will only use social networking sites in school in accordance with the school's policies (please see the Wade Deacon Trust Social Media Policy for further information)
- I will only communicate with students/pupils and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

**The school and the Wade Deacon Trust have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the :**

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school/academy ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school/academy policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school and Trust policies.
- I will not disable or cause any damage to school/academy equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School/Trust Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or student/pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school/academy policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

**When using the internet in my professional capacity or for school sanctioned personal use:**

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

**I understand that I am responsible for my actions in and out of the school:**

- I understand that this acceptable use policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and Trustees and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

## *Acceptable Use Agreement for Community Users Template*

This acceptable use agreement is intended to ensure:

- that community users of school/academy digital technologies will be responsible users and stay safe while using these systems and devices
- that school/academy systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

### Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school/academy:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school/academy has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

## ***Widnes Academy Personal Data Advice and Guidance***

### **Data Protection Law – A Legislative Context**

With effect from 25th May 2018, the data protection arrangements for the UK changed following the implementation of the European Union General Data Protection Regulation (GDPR). This represented a significant shift in legislation and in conjunction with the Data Protection Act 2018 replaced the Data Protection Act 1998. GDPR - As a European Regulation, the GDPR has direct effect in UK law and automatically applies in the UK until we leave the EU (or until the end of any agreed transition period, if we leave with a deal). After this date, it will form part of UK law under the European Union (Withdrawal) Act 2018, with some technical changes to make it work effectively in a UK context.

Data Protection Act 2018 – this Act sits alongside the GDPR, and tailors how the GDPR applies in the UK and provides the UK-specific details such as; how to handle education and safeguarding information.

No Deal Brexit -The Information Commissioner advises that in the event of a no- deal Brexit it is anticipated that the Government of the day will pass legislation to incorporate GDPR into UK law alongside the DPA 2018. Unless your school/academy receives personal data from contacts in the EU there will be little change save to update references to the effective legislation in privacy notices etc.

In this document the term “Data Protection Law” refers to the legislation applicable to data protection and privacy as applicable in the UK from time to time.

### **Does the Data Protection Law apply to schools?**

In short, yes. Any natural or legal person, public authority, agency or other body which processes personal data is considered a ‘data controller’.

A school/academy is, for the purposes of the Data Protection Law, a “public body” and further processes the **personal data** of numerous **data subjects** on a daily basis.

Personal data is information that relates to an identified or identifiable living individual (a data subject).

Guidance for schools/academies is available on the [Information Commissioner's Office](#) (ICO) website including information about the Data Protection Law.

The ICO's powers are wide ranging in the event of non-compliance and schools/academies must be aware of the huge impact that a fine or investigation will have on finances and also in the wider community for example in terms of trust.

The Data Protection Law sets out that a data controller must ensure that personal data shall be:

- a) processed lawfully, fairly and in a transparent manner in relation to data subjects;
- b) collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;
- c) adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
- d) accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;
- e) kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the Data Protection Law in order to safeguard the rights and freedoms of data subjects; and
- f) processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.
